CONTEXT

Sustain_EU project is a Jean Monnet Module funded in the framework of the Erasmus+ Programme.

AIM

The general aim of the module is to inspire, educate, and empower participants to become advocates and practitioners of sustainable practices within the educational landscape of the EU and to equip participants with the knowledge, skills, and mindset necessary to contribute to the development and maintenance of environmentally, socially, and economically sustainable educational institutions.

TARGET GROUPS:

The project is addressed to:

- Higher education learners
- Teachers
- School administrators
- Parents
- Researchers
- Policy makers in the education sector
- All stakeholders of the education community

MAIN ACTIVITIES:

- A Course aiming at teaching Sustainable Schools in the BA and Master of Education will be taught throughout six semesters.
- A workshop at the end of each semester will be organized.
- Seminars through the project as one for each semester will be organized by project team.
- Book reviews will be organized in the first semesters of the project years.
- Site-visits to samples of sustainable schools or to schools which have sustainable practices will be visited by Master's students together with some of the project experts.
- Summer schools will be organized with the participation of experts, invited speakers from academic world, local and state-level policy makers of education, civil servants from different institutions, community actors and media in order to establish a dialogue between academia and society.
- A project final summit will be organized at the end of the project aiming at bringing academia and civil society actors together and disseminating the project outcomes to wider society.
